

GHOST™

by SoundOff Signal

Our NEW Ghost™ light is the smallest Generation 3 LED light that provides professional warning light power when on and hides from view when off!!

Ghost mounts anywhere with three included mounting options:

- Permanent Screw Mount
- Adhesive Mount, a super duty automotive grade 3M tape
- New "U" bracket for mounting on hood or even trunk edge

Features include:

- **NEW** 32 Flash Patterns
- Synchronization (synchronize sets of Ghost lights to flash with the same pattern)
- Moisture and vibration resistant for heavy duty application
- 10 - 30 volt for world wide use
- Low amp draw at less than 0.75 amps per module
- Dimensions of light: 4" l x 0.88" h
- Colors: Amber, Blue, Red and White **plus** split colors in any combination of colors listed
- SAE J595 compliant

Permanent Mount is ideal for any exterior or interior application

Adhesive Mount is a tough automotive grade tape that holds the product where you need it without drilling holes

New "U" bracket mounts the Ghost light on the hood or trunk edge

Dual "U" bracket allows you to mount two lights side by side
